Election/Restrictions

Claims 14-30, 35-37, and 41 have been rejoined. These claims have been fully searched for patentability under 37 C.F.R. 1.104. Claim 14 has been rejoined as it represents a species that is similar to the elected invention or species as seen in Fig. 5. The non-elected claims dependent from claims 14 and 31 have been rejoined as they stem from an allowable independent claim.

Claim Rejections - 35 USC § 112

The 112 1st paragraph and 112 2nd paragraph rejections made in the previous office action have been withdrawn. Applicant has pointed out in the specification that the braches of the "y" form a channel (seen in the Figs. as 130 or 230) in the rib which gives the rib the "y" shape in cross-section.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Kelber on June 22 2004.

The application has been amended as follows:

Art Unit: 3727

In the claims:

Claims 1-13 and 49-73 have been canceled.

Claim 14, line 6, both occurrences of "toroid" have been replaced with --hoop--.

Claim 14, line 10, "toroid" has been replaced with --hoop--.

Claim 31, line 3, "toroid" has been replaced with --hoop--.

Claim 31, line 8, "toroid" has been replaced with --hoop--.

In the Specification"

Page 2, line 13, "toroidally shaped" has been deleted.

Page 3, line 14, "toroidal" has been deleted.

In the abstract

In the first line of the abstract, "toroidal" has been deleted.

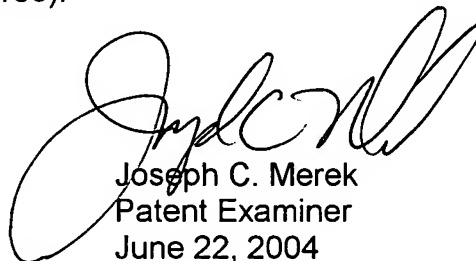

The following is an examiner's statement of reasons for allowance: the prior art does not teach the claimed combination of the storage tank with the hoop shaped rib where the rib has a "y" shaped cross-section where the trunk section of the rib is longer than it is wide. This structure is not found in the prior art. To make the trunk of Berg et al (US 5,720,404) longer than it is wide would have required hindsight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph C. Merek whose telephone number is (703) 305-0644. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee Young can be reached on (703) 308-2572. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
